

Re: Proposed expansion of LPFM station priority. I am a listener of K-LOVE (88.9) in my area. I support the broadcast financially as this is a listener-supported station. This station provides my community with music and messages free of violence, profanity, and sexual content. This station's music and messages support integrity, honesty, and financial responsibility. The music provides a cross-generational common ground. Its messages are indeed positive and encouraging. I encourage the FCC to veto any ruling which would potentially deprive my community of K-LOVE. Thank you. Earlene Posselt.
